

Gas analyser AT 505

(Multi-Di@g Gas)

- Gas analyser AT 505 is a PC based a four (five) gas analyzer.
- Gas analyser is intended for maintenance and inspection of spark ignition engines.
- The data are transmitted from Gas analyser Module via USB into a PC for processing, storage and printing.
- Gas analyser is a part of modular Multi-Diag system.

Gas analyser AT 505 set includes:

- Gas analyser AT 505 Module - two types with available:
 - 1) With RPM and temperature measurement
 - 2) Without RPM and temperature measurement
- Gas analyser Software
- Host computer (PC or Laptop) is not included in the set

Host computer requirements

- Windows 2000/XP
- CD ROM drive
- HDD 1GB free
- RAM 32 MB
- Free USB port

Option

- Multi-Di@g - serial diagnostics
- Multi- Di@g Scope
- Multi-Di@g Motortester
- Opacimeter AT 605
- NOx measurement based on electrochemical cell

Specification

Measured quantity	Range	Resolution	Accuracy	Note
CO	0 - 10 % vol	0.01 % vol	0.03 % vol or 5 % RV	
CO ₂	0 - 20 % vol	0.1 % vol	0.5 % vol or 5 % RV	
HC _(hex)	-12 - 2000 ppm vol	1 ppm vol	10 ppm vol or 5 % RV	
	2001 - 9000 ppm vol	10 ppm vol	or 5 % RV	
O ₂	0 - 4 % vol	0.01 % vol	0.1 % vol or 5 % RV	
	4 - 21 % vol	0.1 % vol	5 % RV	
CO _{cor}	0 - 10 % vol	0.01 % vol		1
NO _x	0 - 5000 ppm vol	1 ppm vol		
Lambda	0.500 - 2.000	0.001	ISO 3929	2
RPM	400 - 2000 min-1	10 min-1	20 min-1	3
	2001 - 9999 min-1		2 % RV	
Temperature	0 - 150 °C	1 °C	2°C	3

Gas analyser AT 505 meets OIML R 99/ Class 0

RV = of reading value

Note no.:

- Supply voltage 100 to 240 V AC
 47 to 63 Hz
 or 10 to 18 V DC
- Power input..... 40 W max.
- Warm-up time 10 min max. (at 25°C)
- Communication interface USB 2.0
- Weight (Multi-Di@g Gas module)..... 5 kg max.
- Dimensions (Multi-Di@g Gas module) 330 * 178 * 195 mm
 (depth * width * height)
- Operation temperature..... 5 to 40 °C
- Operation humidity..... up to 90 % non-condens.
- Atmospheric pressure 860 to 1060 hPa
- Storage temperature -10 to 45 °C

1 - Calculation: $CO_{cor} = \frac{15 \cdot CO}{CO + CO_2}$

2 - Calculation: Brettschneider's equation

3 - Only in version the AT 506 module
